DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed January 10, 2007 have been fully considered but they are not persuasive.

Applicant amended claims 1 and 12 with "wherein the LSR's are actually logically defined in a plurality of adapters". However, the amendment does not put the claims in condition for allowance. According to Figure 3, forwarders are incorporated into the adapters. The adapters having forwarding functionality are defined as having LSR characteristics. Therefore, the adapters in Fig. 3 can be interpreted as LSRs.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. **Claims 1 and 12** are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Applicant's admitted prior art of Fig. 3.

With regard to claims 1 and 12, Fig. 3 discloses

logically defining a label switch router (**LSR**) connected to an MPLS network (**ATM**) and a non-MPLS network (**Ethernet**) as a plurality of LSRs (**adapters**) each having a label switching function (**IP/MPLS forwarder is mounted in each adapter**)

Art Unit: 2616

and each having a port or a port group (**see connections from adapters to the networks**); and

specifying only, when setting a label switched path (**LSP**) on the basis of an explicit route specified (**from upper left adapter to upper right adapter**), a port or a port group of an egress node (**the upper right adapter**) that corresponds to one of the plurality of logically defined LSRs (**adapters**) terminating the LSP (**the upper right adapter**); wherein the LSRs (**adapters**) are actually logically defined (**fowarders**) in a plurality of adapters (**adapters**).

Allowable Subject Matter

4. **Claims 6-11,17-22** are allowed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
